

Higher Certificate in Emergency Medical Care

The Higher Certificate in Emergency Medical Care is a one-year, full time programme, which includes professional, vocational, and industry-specific knowledge that provides a sound understanding of general theoretical principles as well as a combination of general and specific procedures and their application.

How to apply

Applications will be conducted online, and access to the applications portal can be found on our website:

<https://healthsciencecolleges.co.za/study-emergency-medical-care/>

Disclaimer:

These are very competitive qualifications, so meeting the minimum requirements does not guarantee enrollment in any program.
